50X1-HUM

1. The 1955 production plan for VEB Transformatoren-Werk (transformer plant) "Karl-Liebknecht" in Berlin-Oberschoeneweide was fulfilled 108 percent. This high state of fulfillment was reached by adding all unfinished products, of which various parts were not completed and delivered until March or April 1956. These products will again be enumerated in the report on the 1956 plan fulfillment.
2. The 1956 production plan will be higher by 2½ percent than the 1955 production plan. The 1956 plan was not drawn up on the basis of the original 1955 plan, in which a turnover of 50 million DME was stipulated, but based upon the revised 1955 plan containing a turnover of 40 million DME. The production plan for the first quarter of 1956 was fulfilled 82 percent at VEB Transformatoren-Werk.
